Product Charging

Before first use, please charge the product fully

1. Use the provided Micro USB charging cable to charge the Bluetooth Audio Receiver. It can be connected to any standard USB-A power source (Adapter not included).
2. While the Bluetooth Audio Receiver is charging, the indicator light will be red. Once it is fully charged, the red light will disappear.

Operation Guide

1. Insert the 3.5mm connector into the audio output of the car.
2. Power on the Bluetooth Audio Receiver by holding the [Calls+Music] for 3 seconds. Then, a blue and green LED light will flash alternately to indicate it is in pairing mode.
3. Open the bluetooth settings on your mobile phone and search for "MP S-18" to pair.
4. To power off the Bluetooth Audio Receiver, press and hold the [Calls+Music] for 3 seconds.
5. If no device is connected after it is powered on, it will automatically shut off to conserve battery after 3 minutes.

Important Notice

1. The power input of this product is DC 5V / 100mA. Any usage beyond this specified voltage could result in abnormalities and possible damage.
2. Please unplug the Bluetooth Audio Receiver if it is not in use for an extended period of time. Make sure it is stored in a safe, ventilated place for storage.
3. Do not use or store in an area where there are magnets as it could cause damage or affect the functionality.
4. Do not store in extremely high or low temperatures.
5. In order to ensure the life of the product, as well as your physical health, do not play music at the maximum level for extended periods of time.
6. While using it in the car, be sure to unplug it and store in a cool, covered place like the glovebox, to avoid damage from extreme heat.
7. Do not disassemble the product. Do not allow children to unplug or play with the product.
8. This product contains a built-in battery, therefore it should not be thrown into a fire or any flammable environment as it could be dangerous
