HOW TO CHARGE

Fully charge Katchy Kitty before first use.

Note: it takes approximately 2 hours for a full charge.

Connect the USB-A plug to a charger with a 5W power output, and insert the Micro USB plug into the charging port.

LED POWER INDICATORS

●	Steady Red	Charging
●	LED Off	Fully Charged

POWER ON/OFF

Power On:
Press & Hold the Power/Play button for 3 seconds.

The LED indicator will light up blue and turn off after 3 seconds.

Power Off:
Press & Hold the Power/Play button for 3 seconds.

The LED indicator will light up red and turn off after 1 second.

NOTE: After three minutes of inactivity or if there is no connection, the headphones will automatically turn off.

LED CAT EAR CONTROLS

The lights will automatically turn on when the Katchy Kitty is powered on.

Power Off:
Press and hold the Call button for 2 seconds.

Power On:
Press and hold the Call button for 2 seconds to turn the power back on.

BLUETOOTH PAIRING

1. Press and hold the Power/Play button for 3 seconds to turn on the headset. The LED indicator light will alternately flash red and blue as the headset enters the pairing mode.
2. Ensure your device's Bluetooth setting is turned on.
3. Choose "MyBat Pro Katchy Kitty" from the list of found Bluetooth devices and click pair.

Note: Once turned on, the headset will automatically connect to your last paired device if it is within the Bluetooth range.

MUSIC CONTROLS

CALL CONTROLS

AUX-IN PLAY

Wired listening is possible when the headset is powered off or out of power with a 3.5mm auxiliary cable.

Bluetooth and button functions are disabled while in Aux-In mode.

If the headset is paired via Bluetooth, you will hear a voice prompt of "power off" when inserting the auxiliary cable before entering the Aux-In mode.

Note: If you want to use Bluetooth, please unplug the auxiliary cable and reset the headset.

MICRO SD CARD PLAY

1. Insert the Micro SD card into the headset, and the device will automatically play the music stored on it.
2. When in Micro SD mode, you can only listen to the music on the card and cannot make phone calls.
3. Press and hold the Mode Button to switch between Micro SD, Bluetooth and FM play modes.

FM RADIO PLAY

1. Turn on the headset. Press and hold the Mode button to switch to FM mode.
2. In FM mode, click the Power/Play button to enter the station search.
3. After the station search, press and hold (Previous Track/Volume Down symbol)/(Next Track/Volume Up symbol) to toggle between the previous and next station.
4. In FM mode, you can insert the charging cable as an antenna to enhance the signal.

Battery:	400mAh Lithium Polymer Battery
Charging Time:	1.5~2.5 Hours

IMPORTANT

To avoid hearing damage, limit the time you use headphones at high volume and set the volume to a safe level. The louder the volume, the shorter the safe listening time is.

Be sure to observe the following guidelines when using your earpieces.

- Listen at reasonable volumes for reasonable periods of time.
- Be careful not to adjust the volume continuously upwards as your hearing adapts.
- Do not turn up the volume so high that you can't hear what's around you.
- You should use caution or temporarily discontinue use in potentially hazardous situations.
- Excessive sound pressure from earphones and headphones can cause hearing loss.
- Using headphones with both ears covered while driving is not recommended and may be illegal in some areas while driving.
- For your safety, avoid distractions from music or phone calls while in traffic or other potentially dangerous environments.

FCC STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates and can radiate radio frequency energy and, if not installed and used in accordance with these instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference and
 - (2) this device must not accept any interference received, including interference that may cause undesired operation.
- Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
