

ACTIVATE MAX

FITNESS SMARTWATCH

User Manual

WELCOME

Thank you for choosing the MyBat Pro Activate Max Fitness Smartwatch. This powerhouse device is your key to taking control of your fitness journey. Keep tabs on your daily steps, blood pressure, heart rate, calorie burn, and shut-eye with ease. And don't let those distractions get in your way, this watch has got you covered with all the tools you need to stay on track. Jam out to your favorite tunes, stay connected with call and message notifications, set reminders, time your workouts with the stopwatch, and never miss a beat with preset alarms. So gear up, activate that max mode and let's get to work

Please read this user manual carefully and keep it for future reference.

PACKAGE CONTENTS

Activate Max Fitness Smart Watch

Charging Cable

User Manual

1. Activate Max Fitness Smart Watch
2. USB Charging Cable
3. User Manual

PRODUCT OVERVIEW

1. LED Touch Screen
2. Adjustable Silicone Strap
3. Multi-function Button
4. Mode Button
5. Charging Port
6. Heart Rate Sensor
7. Temperature Sensor

HOW TO CHARGE

Fully charge the Activate Max before first use.

1. Connect the charging cable to a USB power supply.
2. The charging cable should attach magnetically to the Activate Max's charging port.

NOTE: Check that your cable's charging pins are secure in the charging port for optimal charging.

CHARGING INDICATOR

RECOMMENDED WEARING

A two-finger distance from your wrist bone is recommended in order to ensure the heart rate sensor tracks properly.

NOTE: Ensure that the wristband is adjusted tightly as the optical sensor must be in contact with your skin.

APP SETUP

Scan the QR Code or search for the GloryFit app in the Apple Store / Google Play store.

NOTE: The GloryFit app is only compatible with phones, not tablets or PCs.

System Requirements:
• iOS 8.0 and higher
• Android 4.4 and higher
• Bluetooth 4.0 and higher

PAIRING YOUR PHONE

Please use the GloryFit app to pair the Activate to your phone, NOT in the Bluetooth settings of your phone.

DO NOT pair using your phone's Bluetooth settings.

PAIRING YOUR PHONE

Ensure your phone's Bluetooth setting is turned on.

Open the GloryFit app on your phone and go to the "Device" page. Tap "Select Device" to search for devices.

Once found, tap on "MP Activate Max" to connect the watch to your phone. If your phone failed to find the device, please search for it again.

NOTE:
Once paired to the app, the Activate Max will automatically search and reconnect if the connection is lost or if Bluetooth is reset.

If the Activate Max is disconnected from the app, the information will be reset. Please do not disconnect from the app unless there is an issue that requires a reset to the app or your watch.

GETTING TO KNOW YOUR ACTIVATE MAX

Circular Button

Strip Button

Circular Button

Light Up Screen Press 1X

Turn Off Screen Press 1X While On The Watch Face

Return To Watch Face Press 1X While On Other Screens

MODES & FUNCTIONS

- Do Not Disturb Mode
- Call Function
- Brightness & Adjustment
- Find My Phone
- Theme Switching
- System Settings

STEPS/ CALORIES / DISTANCE TRACKING

View your daily steps, walking distance, and calories burned. Additionally, stats are synced with the app for use with Sports settings and to better track data.

HEART RATE MONITOR

Keeps an accurate heart rate record by tracking it in real-time as it syncs with the app.

BLOOD PRESSURE MONITOR

Keeps an accurate blood pressure record and monitors spikes and dips by tracking it in real-time as it syncs with the app.

You should see the results within 15 seconds of entering the screen.

BLOOD OXYGEN MONITOR

Allows you to monitor your blood-oxygen levels in real-time and tracks spikes and dips in your levels.

You should see the results within 15 seconds of entering the screen.

TEMPERATURE MONITOR

Easily monitors your body temperature throughout the day. You should see the results within 15 seconds of entering the screen.

SLEEP MONITOR

NOTE: Data from Sleep Monitoring can only be seen through the GloryFit app and will only be collected if the Activate 2.0 is worn while sleeping.

NOTIFICATIONS & TEXTS

The Notification Center mode lets you view stored notifications from your phone. You must enable the desired types of notifications via the app by going to watch settings and selecting the notification types (incoming call, app alerts, idle alerts, activity goal alert and incoming SMS).

ACTIVITY TRACKER

Tap the Rectangular Button on the side of the Activate Max Watch to enter the Training Menu.

With the Activate Max, you can track and monitor your activity levels during your workouts or any sports you choose. The screen will do a 3-second countdown before starting to track.

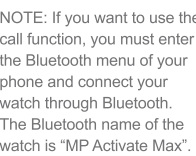

To Finish Your Activity or Restart Your Activity, swipe right on the screen.

CALL FUNCTIONS

Through the pull-down menu, you can quickly enter the call interface.

You can make calls and view call records and contacts.

NOTE: If you want to use the call function, you must enter the Bluetooth menu of your phone and connect your watch through Bluetooth. The Bluetooth name of the watch is "MP Activate Max".

MUSIC CONTROLS

QR Code: Displays the QR code for the GloryFit App.

Off: Power Off the Activate Max

Reset: Reset the Activate Max to default factory settings.

NOTE: The settings can also be reached by swiping down on Watch Face.

FAQS

1. Why are the blood pressure, heart rate, and blood oxygen tests not to be used as medical records?

Tests are only used to monitor levels and changes and cannot detect or identify preexisting or underlying conditions. The data is to be used for reference only.

2. Why Can't I Get Caller Notifications Or Push Notifications From Certain Apps On My Phone?

Android Users:
The GloryFit App will need permission to access your Facebook and Twitter accounts at first. Once all permissions have been updated, you will be able to access to notifications on your Activate.

Apple Users:
Your phone will have a pop-up pairing request. Upon selecting pair, you will begin receiving notifications from Facebook, Twitter, etc.

SPECS

Display Size: 1.85"

FCC STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates and can radiate radio frequency energy and, if not installed and used in accordance with these instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference and
- (2) this device must not accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
